### CONFEDERATE FLAG

Not to be Unfurled at the World's Fair.

### A TRAIN ROBBER CONFESSES.

The Cruiser "Detroit" Successfully Launched.

### Powder Works Explode and Kill Two Men.

### The "Detroit" Launched.

BALTIMORE, Oct. 28.—At 3 o'clock this afternoon, the new steel cruiser Detroit was successfully launched in the presence of a large crowd of people. Florence N. Malster, 9½ years old, daughter of President Malster of the Columbian Iron Works, where the steamer was built, christened the Detroit.

"Cruiser No. 10," as the Detroit is generally designated, is one of the triplets, two of which are going to be built here and the third at Boston. They are known as 2,000-ton cruisers. Their machinery is to develop 5,400 horsepower, which should drive the vessel at the rate of 18 knots an hour. Their length is 237 feet; beam, 37 feet; draught, 14½ feet. The armament consists of eight four-inch and two six-inch rapid firing breech-loading rifles. The secondary battery is composed of ten rapid firing revolving cannons, and six torpedo ports are provided to rig a two-masted schooner. The normal coal supply for ordinary service is 200 tons, but the bunker arrangement is such that 435 tons can be carried, which will not only add greatly to her ability to keep out of the way of the enemy's projectiles, but will admit her steaming 10,000 miles at a speed of 18 knots an hour. The motive power is furnished by two triple expansion engines of the vertical inverted cylinder of the direct acting type.

### Impressive Ceremonies.

PHILADELPHIA, Oct. 28.—Impressive ceremonies marked this morning's consecration of Rev. Isaac Lea Nicholson to the Bishopric of Milwaukee. The event took place in the Episcopal Church of St. Mark's. The edifice from the ground floor to the organ loft was filled to overflowing, while hundreds were unable to gain admission. Over 200 clergymen from all parts of the country and sixteen Bishops were also present. Bishop McLean of Chicago officiated as celebrant. The sermon was delivered by Bishop Crafton of Fond Du Lac, Wis. The oath was then administered to Bishop Nicholson, while the choir rendered the Litany. The ceremony concluded with the congregation joining in singing the hymn "Praise to the Holiest." The formal enthronement of the new Bishop will take place in Milwaukee next month.

### The Confederate Flag.

RICHMOND (Va.), Oct. 28.—At the annual meeting of the Society of the Army of Northern Virginia, speeches were made by Generals Early, Taliaferro, Rosser and Field. The last named said: "I understand the Confederate flag cannot be unfurled at the World's Fair. If this is the case, let us never have another World's Fair in this country."

### Powder Works Explode.

YOUNGSTOWN (O.), Oct. 28.—This morning the glass mill of the Ohio Powder Works, located four miles north of this city, exploded, killing two men, Joseph Meigs and Ben Semans, and completely destroying the mill. The mutilated remains of the men were scattered over a ten-acre field.

### Train Robber Confesses.

SAN ANTONIO (Tex.), Oct. 28.—Jas. Lansford, one of the men arrested upon a charge of being implicated in the Southern Pacific train robbery, has confessed his guilt. He claims to have been forced into joining Fields, Flint and Wellington; the other robbers, by threats upon his life.

### Heavy Storms.

PARIS, Oct. 28.—Heavy storms accompanied by lightning renewed their violence to-day in the southwest departments of France. Enormous damage was done to farms, live stock and fruit trees throughout the country in and about Cerdagne.

### Mutinous Outbreak.

LONDON, Oct. 28.—Military circles and the public in general were startled to-day by the publication in the columns of the Truth of the details of another mutinous outbreak on the part of the Grenadier Guards, who are stationed at Windsor Castle. This is the second mutiny of the same battalion within six months. It had its origin in the ill feeling permeating many of the corps of the British army on account of insufficient and unpalatable rations, which, the men claimed, were served there for their meals on Wednesday, October 14th. These rations, they claim, were especially bad, and caused the smouldering feeling of insubordination to break out.

The privates of Company I refused to eat the rations, and they were confined to the barracks for a day, and the corporals of the same company were placed under arrest pending an inquiry into the mutinous conduct of the privates. An inquiry was made into the outbreak which showed that the Grenadiers had on previous occasions complained of the quality of bread served them, and the injustice of their complaint not being admitted, the men threw the bread out of the barracks windows into the squares. The adjutant of the bread battalion declared that he was not aware the men had acted in the manner mentioned, adding that he was wholly ignorant of the entire incident, and that he had not received any report upon the subject, thereupon, the Truth says: The evidence of a hundred witnesses can prove these facts, if such an outbreak, and the consequent arrests is possible without the Colonel or Adjutant knowing of them; the worst said about a gulf separating the officers from the men is not far short of the truth.

### Shot Himself.

CHICAGO, Oct. 28.—Edwin E. Marshall, of the U. S. Navy, shot himself dead at his hotel this morning, as the result of trouble between himself and his young and beautiful wife. Marshall and wife were married at Denver last February but have not lived happily together. His wife finally left him, it is said, and made her way to California. The husband started in hot pursuit. After searching several western States his wife was hunted down in Chicago. She quitted the hotel about three weeks ago, just a few minutes after her husband's arrival. In desperation the wife concealed herself in the city, and fearing her husband would murder her she commenced proceedings against him for divorce and a share in his property. The wife charged that her husband so abused her she had to leave him. Marshall's rank in the navy is not known, but it is said he is connected with one of the U. S. men-of-war at Philadelphia.

### Quay's Certificate.

PITTSBURG, Oct. 28.—A Rochester, Pa., special says: Senator Quay was called on at his home in Beaver early this morning and questioned as to a certificate of deposit for \$8,877 from the Keystone Bank to Bardsley, made payable by him to Senator Quay through the Beaver Deposit Bank November 29, 1889. He said his recollection of the details of the transaction were rather indistinct, but he is satisfied the date of the certificate given in the circular was a forgery. He said: "In October, not November, 1889, I gave my note to a gentleman representing the Republican City Committee of Philadelphia for \$9,000, upon which to raise that amount of money for the campaign of that year. Of what was done with it I know nothing personally, except that afterwards it was returned to Campbell. He had, as I understand by the Republican State Committee, Bardsley's draft for the amount of the note less the discount."

### Quiet in Ireland.

CORK, Oct. 28.—All is quiet here this morning, but the troops of the garrison are under arms and ready for any emergency. Additional reinforcements to the constabulary have been drafted into the city, in anticipation of some lively election disturbances. Dillon and O'Brien and the Catholic priests are actively canvassing the city for the McCarthyite candidate for the seat in the Commons made vacant by the death of Parnell, and the two Redmonds and other Parnellites are also busy electioneering.

### Case of a Suicide.

BOSTON, Oct. 28.—A local paper prints a story to the effect that the suicide of Irving A. Vance, a broker, was due to the action of his partner in a certain large business transaction, who refused to perform his part of the contract in a deal which involved the loss of some \$350,000.

### Weather Report.

SAN FRANCISCO, Oct. 28.—Forecast, light rains in northern California.

### Books and Security Intact.

NEW YORK, Oct. 18.—A meeting of the Board of Directors of the Adams Express Company was held to-day. President Sanford states that the examining committee had found the books and security intact, barring the discrepancies already made public.

The Board appointed a committee consisting of President Sanford, Managers Lovejoy and Seward, with instructions to devise and report to the Board at its next meeting a plan or system by which the property and express monies of the association should be more secure and safely guarded for its shareholders, and by which the possibility of theft, speculation, personal misappropriation, breach of trust and appropriation for unauthorized expenditure therefrom should hereafter be rendered as absolutely impossible as it could be made.

A conference between the trunk line freight committee and general freight agents of the Central Traffic Association, for the purpose of arranging a satisfactory division of the east-bound rates on business originating west of Chicago is in progress here to-day.

Dr. Salvador de Mendoca, Minister of Brazil to this country was a passenger on the steamer Majestic, which arrived this morning from Liverpool.

### An Assignment.

ST. PAUL, Oct. 22.—The assignment of Bushnell & Bushnell, widely known throughout the east and west, as leaders among real estate dealers, was filed in the District Court to-day. The assignment includes that of the Standard Investment Company of St. Paul, Wm. Bushnell, President. Wm. Bushnell said: "We expect to go on with our business and pay all liabilities." The statement shows that the liabilities are from \$450,000 to \$500,000, and the assets from \$450,000 to \$600,000. A small part of the liabilities are held by the St. Paul banks, the larger creditors all being in the east. The failure is the result of two suits for \$5,000 each, recently brought against them in the courts here, and the garnishment of their bank accounts.

### Attempted Suicide.

DENVER, Oct. 28.—W. P. Burgess, who came to Denver Sunday in search of his wife, who eloped with C. F. Stem of Columbus, Ohio, received a telegram from Seattle, Wash., which stated that Mrs. Burgess was at the residence of her sister in that city critically ill from the effect of a dose of morphine, which she took with suicidal intent, on hearing of her husband's actions in having Stem arrested. Stem had his preliminary examination and was released on \$5,000 bond.

### Grievance Committee.

HOBOKEN (Tex.), Oct. 28.—The Grievance Committee of the Southern Pacific Railroad employees, composed of the members of the Order of Trainmen, Order of Railway Conductors and Association of Switchmen and Firemen, is in session here. ### Fire at Colton.

COLTON (Cal.), Oct. 28.—A fire broke out in the Kelling building this morning, completely destroying the building which was occupied by Mrs. Hathaway, dealer in cigars and tobacco, and George Boalch, dealer in boots and shoes, and up stairs by the Cottage Home restaurant. Total loss, \$10,000; insurance, \$1,000.

### Prince of Wales Loses.

### A Grand Reception.

PARIS, Oct. 28.—The Russian cruiser Dimitry Donskoy, arrived at Brest. Upon reaching that port she was cheered by an enormous crowd of people, and was otherwise given a grand reception, after she had exchanged salutes with the ports and with the French flagships.

ENGLISH (Ind.), Oct. 28.—A serious fire is raging along the line of the Louisville and St. Louis railway, in the southern part of the State. Acres of woods, entire fields of corn and many farm houses and outbuildings have been destroyed. Every effort is being made to subdue the fire.

### Railroad to South America.

### A FORMER NEVADAN PROMOTED.

Deplorable Immorality Prevalent in Berlin.

### Two Prize Fighters Bitten and Fought Like Bull Dogs.

### Fought Like Bull Dogs.

NEW YORK, Oct. 22.—About two hundred sports from the city and Brooklyn journeyed to the Road House near Danbury, Conn., where they witnessed a kid glove fight to a finish, between Jack Bates of Ohio and Joe Daly of New York. It was after one o'clock this morning when the men entered the ring. Colonel McAuliffe, brother of the famous light weight champion pugilist, was selected as referee of the fight; it was a sort of go-as-you-please affair, and at one time it looked as though the whole 200 were going to take a hand in it. The men started off in good shape, and the first four rounds were fought fairly. Daly received some severe punishment which induced him to commence his foul fighting. The fouling commenced about the latter part of the fourth round and before the close of the fifth round everybody was in the ring, pushing, shoving and jostling one another, and crying "foul," at the top of their voices; the wildest kind of excitement prevailed, while several were endeavoring to separate the fighters, who had their teeth fastened in each other like two bull dogs. Fully five minutes was lost in trying to restore peace. In the sixth round, during one of the clinches, Daly managed to get his thumbs in Bates' mouth and managed to increase the size of it, by running it up into the left cheek. Bates bled freely and first blood was claimed for, and allowed to Daly; the men had to be separated frequently in this round, as both fouled all they knew how every time they came together. At the call of time, Daly evidently did not think he was evened up, as he followed Bates to his corner and bit a piece out of his shoulder; it was cold blooded, but still it was allowed, despite all the protests of the crowd who went there to see a fight to the finish, and so long as both men were fouling, the squealers wanted to see it out, no matter if the fighters killed each other. The seventh round was a rough and tumble affair, in the most approved style, consisting of choking, biting, kicking, gouging and all kinds of unfair fighting. Daly, who started all the foul fighting, got decidedly the worst of it at his own style of pugilism; he finally ran out of the ring to escape his punishment, but he was thrown back into the ring by his own friends, and told to take his medicine. He made several more attempts to turn and make his escape, but each time he was headed off by the crowd and pushed back into the ring. The eighth and last round was of short duration, as all the fight had been punched out of Daly, and his only aim seemed to be to get out of the ring, and as far away from Bates as possible. Finally, in his mad effort to escape, he smashed McAuliffe in the face, and dove through the ropes like an arrow, and there was nothing left for McAuliffe to do but give the victory to Bates, which he did; then all hands started for their homes.

### Immorality in Berlin.

BERLIN, Oct. 28.—The Reichsanzeiger (official), by order of Emperor William, comments editorially upon the deplorable immorality prevalent in Berlin. Continuing, the Reichsanzeiger enjoins the local authorities to adopt an energetic measure for the suppression of men who live upon the earnings of prostitutes. The police, the inspired official newspaper adds, must act without scruple in suppressing this evil.

### A Big Enterprise.

ASTORIA (Tex.), Oct. 28.—The charter of the Pan-American Railway Company has been filed here. The line is to run 240 miles, from Victoria to Brownsville, on the Rio Grande. The proposed capital is \$3,000,000. This is the supposed incorporation of a big enterprise to extend the road eventually through Mexico into South America.

Judge Slack is married and has two children. He is a member of the Bar Association, and of California Lodges No. 1 and No. 5, Royal Arch Masons, also of the California Commandery of Knights Templar.

### Chill's Nightingale Walks with Slaves.

WASHINGTON, Oct. 28.—Senator Pedro Montt to-day called at the Department of State to see Secretary Blaine. Senator Montt positively refused to state what was said by Secretary Blaine, and left the Department immediately for his home. It is understood that Montt has been recognized as the Chilean Minister in a provisional way only, which puts him in the same status as that now occupied by Egan in Chile.

### A Court Struggle Ended.

BOSTON, Oct. 28.—The decree of the Board of Visitors has been set aside in the famous Andover case. This decision of the Supreme Court is on the ground that the trustees were not made a party to the original proceedings. This decision means victory for Professor Egbert E. Smith, who was expelled from the Phillips Academy in Andover, and doubtless ends the struggle that has been before the public for over five years.

### Defendant Arrested.

PITTSBURG, Oct. 28.—A bill was filed in court to-day asking for the appointment of a receiver for the Dexter Spring Company of this city. The bill alleges the defalcation of President Dorfing, who is now under arrest in Omaha.

The waters of the Thames river are subsiding. A fund for the relief of the flood sufferers has been started.

The Clarendon Hotel Restaurant is, since Mr. Wildrick assumed management of the same, run in first-class style. None but respectable help employed. Everybody speaks about it and says: "What a change." Commercial men say they can get as good a meal there, since it changed hands, as can be had in San Francisco. Mr. Wildrick has leased the dining room for one year from October 14th.

WEDNESDAY, OCTOBER 28, 1891

HENRY WATSON was interviewed the other day and expressed the opinion that the Democratic ways and means committee will formulate a bill placing all foreign merchandise which competes with the American manufacturer on the free list, thus admitting them without duty, and abolishing every vestige of protection. That will make it necessary to reimpose revenue duties on sugar, coffee, tea and other like products, and doing that would protect nothing. He believes the Democratic House will pass such a bill without delay, that the Republican Senate will defeat it, or if by chance it goes through that body, the President will veto it, and that the Presidential election next year will be fought out on the approval or disapproval of that free trade bill.

And when a newspaper taking this up made a supposition case, suppose that possibly the Senate and Executive should both conclude to let a Democratic free trade bill pass and take effect at once, in order to settle this old vexed question for all time, reminding him that the people would have eight or nine months' experience of free trade without a ray of protection on competitive goods, and asked him if it would not be possible that the Democrats would find themselves caught in their own bear trap; he on his return home published the following:

If the Republican Senate will agree to pass such a bill and the Republican President will agree to sign it, we will stake our life upon it that the Democratic ways and means committee frame it and that the Democratic House of Representatives ratifies the work of the committee; and we will further stake our life upon it that the country will like it so well, that it will find its dread of a free trade tugboat so unreal that we shall hear no more about the beauties of protection, except from a few robbers and jobbers whose subsidies have been taken from them.

Such is our faith in our medicine that we are willing to test its efficiency upon a shorter trial than we think and have thought best; for we have at all times urged that modifications of the tariff should be made with due regard to existing industries and a spirit of fairness to all interests, not in a spirit of adventure, or upon lines of experiment and theory.

The Salt Lake Tribune says: The Democrats will pass no such bill. They dare not; they would not carry a single Northern State. There are a great many Democrats who think the present tariff on some articles is too high, but to throw it all off and then to raise the revenue necessary to carry on the Government, to tax the old lady's tea and the old man's coffee and whisky, to open the ports of this country to the surplus of English, French and German goods, would cause enough workmen to rise up and revolt at such a proposition to make the Democratic party look smaller than it did the week after Sumner was fired upon.

MR. WANAMAKER has been making a glowing speech full of promises of what the administration will do for the public. He means to make free delivery of the mails so regular and universal that the farmer in Wayback shall have his paper shoved under his pillow instead of having to journey to the post office, miles away, in search of it. Meantime, couldn't he do just a little something for a long-suffering business community like ours? Make it so, for instance, that a letter from San Francisco to Reno would not be over three days on the road, and so that papers mailed regularly every evening in Reno for San Francisco would be delivered more than twice or three times a week.

WHAT has become of the ranting Democratic orators echoed by the bourgeois press of the increased cost of the poor man's tin dinner bucket in the event of the passage of the McKinley bill, about which we heard so much during the Congressional campaign of 1890? The fact that woolen clothing is selling cheaper to-day than at any time in the history of this country proves the falsity of Grover's statement that "the tariff is a tax."

THE Journal says this morning that the Ohio election will virtually determine the Presidential election in advance.

VERACIOUS LAWYER.

Tells the World What He Knows About Copperheads Snakes.  
A veracious lawyer relates his experience to the Kingston Freeman in these words: "I have had an antipathy to copperheads since I was a boy and saw this kind of a snake at Marbletown. It is a sneaking, mean snake. There was a path the men used near the house where I lived, and the copperheads would lie along the path in the sun and strike their poisonous fangs at whoever came near them. One man was bitten through the leg, and his leg swelled so big as a barrel and became blue as indigo. He narrowly escaped with his life, notwithstanding the fact that most of the poison was absorbed by the clothing and did not reach the wound. Each year thereafter, at the date when the man was bitten, his leg would become spotted and swell and break out just as though he had been bitten again."

One of the safeguards used by farm hands when at work in hay or grain on ground infested by these reptiles is to bind twisted bands of hay around their legs. The snakes jump up and strike their fangs in the hay without reaching the flesh. There is a legend of one chap in Wawarsing, famous as a mover with a syringe, to the effect that he was bitten on his leg by a copperhead while mowing. The snakes in a field while mowing. The snakes in striking at the man became fastened in the haybands and dangled from his calves, to the terror of his fellow workers who saw him. When informed of his danger he said that was nothing. He was acquainted with the snakes. To prove it he bet a gallon of whisky he could show them a dozen copperheads in less than three minutes. The bet was taken. He drew from his pocket a whistle, blew a shrill blast, and all over the fields the heads of copperheads could be seen above the grass as they raised on their tails to ascertain the meaning of the unwonted sound. The bet was paid, and the man drank the whisky and cut and gathered the hay alone, for no one else could be hired to work in that field from that day.

THE SONAL ISLANDS.

One of the Natives Has the Stars and Stripes Tattooed on Him.  
The existence of the Sonal or Phillips Islands in the Pacific ocean, which has been mooted among mariners for years and finally discredited, has just been reaffirmed by the captains of the British ships Lock Eck and Swanhill, and the little group is likely to be replaced on the marine charts. The maritime exchange of this city has just got possession of all the facts, says the Philadelphia Record.

Capt. Pettendrich, master of the British ship Lock Eck, which cleared this port in September last for Hogo, Japan, sighted the islands in latitude 33° north and longitude 140° 20', in the South Pacific ocean, and reported the facts of his discovery to the branch hydrographic office in the exchange in this city. He reported the islands to be three in number, and to form a range in the path of vessels plying to China and Japan, running in a southeasterly direction for six or seven miles, being connected by low-lying rocks. It is believed that the third island is of recent formation, having come to the surface of the water within the last six months, and the entire group within the last year.

It is thought they were of volcanic origin, but a subsequent vessel, the British ship Swanhill, not only confirmed the position of the islands, but also found them inhabited. Capt. Merkle, of this vessel, fully confirmed the Lock Eck report.

While drifting off the island he was surprised to see two canoeloads of natives come out to meet his vessel. They spoke in some unknown language. They were naked, but for dried leaves around their waists. Nearly every man was tattooed in bright red colors, entirely different from the manner of tattooing in the United States. One of them, who appeared to be a chief, was marked with an American flag, the stars reaching from the thigh to the knee, and the stripes from the knee downward.

NAMES FOR GIRLS.

The Increasing Partiality in Parents for Picturesque Designations.  
It is interesting to note from time to time the prevailing characteristics of the age as reflected in the Christian names of the rising generation. If young people were allowed to choose their own names as soon as they were capable of doing so, or if, as it has been suggested, they were allowed to revise their Christian names, say on being confirmed or on reaching their majority, the tendencies of the time would be still more clearly observable. As it is, however, anyone who has reached the age of thirty is in a position to note the great change which has come over the spirit of personal nomenclature in the last couple of decades.

One has only to look over the list of prize winners at a girls' school to become convinced of the increasing partiality of parents for romantic designations for their offspring. There is less temptation to indulge in romance in naming a boy. Still there is always the danger that a girl's temperament and career will belie her name, if the name happens to be one with any remarkable associations. It does not follow that Stella will show a taste for astronomy or Undine for swimming. Hence, so long as individuals are bound to stick to their Christian names, all their lives, the more discreet parents will continue to avoid the unbridled indulgence in their passion for the picturesque.

Chinese Detective.  
A French surgeon, who has lived in China declares that the Chinese detectives are unequalled in ability for ferreting out criminals. It is impossible for an evil-doer long to elude them. They have an eye upon every man, woman and child, foreign or native, in China, and, in addition, watch each other. Informers are encouraged and collusion is impossible. This instance of their skill is told: "A family in Tongkin was murdered and there was no apparent cause to the murderer. The more discreet parents will continue to avoid the unbridled indulgence in their passion for the picturesque. Chinese Detective. "For 15 years my mother has been troubled with milk leg. She went to different parts of California, as persons said the climate might help her, but it was of no avail, and I, being a druggist, thought I would get her to try Hood's Sarsaparilla. Before she had taken half a bottle she said she was improving, so she continued until she took half a dozen bottles, and now she is perfectly well. For nearly fifteen years she was unable to walk around, but now she can walk as well as ever." F. F. BLAKE, San Francisco, with C. F. Richards & Co., Wholesale Druggists.

Like a New Creature.  
"I have been for years trying to get help for that terrible general debility and weakness so common to women. Within a year I have taken ten or twelve bottles of Hood's Sarsaparilla, and I am now feeling like a new creature." Mrs. F. H. ROSS, Marlin, Texas.

Old People.

J. V. S. is the only Sarsaparilla that old or feeble people should take, as the mineral which is in every other Sarsaparilla that we know of, is under certain conditions known to be emulating. J. V. S. on the contrary is purely vegetable and stimulates digestion and creates new blood, the very thing for old delicate or broken down people. It builds them up and prolongs their lives. A case in point:

Mrs. Belden an estimable and elderly lady of 80 years, St. F. was for months declining so rapidly as to seriously alarm her family. It got so bad that she was finally afflicted with fainting spells. She writes: "While in that dangerous condition I saw some of the testimonials concerning J. V. S. and sent for a bottle. That marked the turning point. I regained my lost strength and health and have not felt so well in years." That was two years ago and Mrs. Belden is well and hearty to-day, and still taking J. V. S.

If you are old or feeble and want to be built up. Ask for

## A Little Out of Line.

The *Homer Index* says: General Irish, the weather sharp of the Reno Gazette, predicts an early and hard winter. The General is away off his meteorological nut. He ordered a big storm for the 20th and it didn't materialize. It is too late now for an early winter. Two years ago at this time we had five or six feet of snow and it did not let up for almost six months. If any weather sharp succeeds in conjuring up a hard storm before New Year we will cheerfully assist in crucifying him.

## Jay Gould's Big Check.

A story is going about the country now to the effect that the largest check ever drawn in this country was given by Jay Gould to Thomas Allen of the Iron Mountain Railroad. He paid \$2,000,000 for it and handed Allen the check for that amount upon his acceptance of the offer.

## Is the Track Short?

The performance of Palo Alto at Stockton yesterday and those of other turf representatives of the Stanford stable would seem to indicate one of the two theories, either that the kite-shaped track is extremely fast or else it is short.

## JOTTINGS.

## Are Your Children Subject to Croup.

As a preventive and cure for croup, Chamberlain's Cough Remedy has no rival. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. There is not the least danger in giving it to children, as it contains no injurious substance. For sale at 50 cents per bottle by J. B. McCullough, Druggist.

## A Word to Ladies.

Ladies who desire a beautiful clear skin, free from pimples, blotches and other eruptions, should commence at once to use Dr. Gunn's Improved Liver Pills. They will also remove the heavy look about your eyes and make them bright, and will cure headache from whatever causes it arises. Remember you are only required to take one small pill at bed time, which is coated with pure sugar, and will not grip or produce any unpleasant action. Sold at 25 cents by S. J. Hodgkinson.

## Certainties.

"The continual dropping of water wears away the stone." So continual headache wears away the brain forces. And it is equally as true that Cephaline wears away headache, and that quickly. All druggists are agents.

## For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. For sale by S. J. Hodgkinson.

## Looking for a Man That Will Likely be Found.

It is said that the brother of Louis Ortiz, the man that was hung by a citizens committee of safety on the night of September 18th, is here in town looking for the man who "put the rope around his neck." If he keeps on looking he will be quite likely to find him.

## Coming to Stay.

The terrible aggravated form of influenza, which physicians on the continent of Europe designate as "la grippe," seems to have effected a permanent lodgment this side of the Atlantic. It makes its appearance as soon as the cold weather sets in, and not infrequently during the summer months. In the spring it is rampant. Nothing checks its first attack, or so effectively combats its subsequent ravages as Hostetter's Stomach Bitters. The purifying, invigorating influence of that benevolent tonic protects the system against the dangers which beset a feeble physique and a weakly constitution consequent upon abrupt transitions of temperature. It diffuses a genial warmth through the diaphragm, which is the best corrective or preventive for a chill, and is a means of neutralizing the effect of exposure to damp or disagreeable weather. In dyspepsia, liver complaint, constipation, rheumatism, neuralgia and kidney troubles it is never resorted to without good results.

## FAST TO A WHALE.

## How a Whaling Party Lost Its Vessel.

On Saturday afternoon last the first vessel of the whaling fleet, the schooner Emma T. Herriman, Captain Fish, arrived in San Francisco from the Behring Sea. Her cargo consisted of 80 barrels of oil and 1,300 pounds of bone. The Herriman left there on the 5th of last December, and had a crew numbering nearly forty persons. On her return, however, she did not have her full complement, as many deserted while the vessel was in the north, joining the crews of other schooners. By an accident, also, the Herriman lost a whaling party of six persons, who were afterward picked up by the cutter Richard Rush and taken on to Oonahaska arriving in San Francisco some time ahead of the schooner that they sailed on.

Regarding the loss of this party there is a story. It seems that the men left the Herriman in two boats in search of whales, in the vicinity of Sandy Point. One of the boats was commanded by First Mate Gardiner and the second by the Third Mate. In the second boat was a sailor named Henry Mann and a companion of his called Jim. After the boats had been out a short time a whale was sighted and the two boats commenced the chase. The whale was harpooned and the boats remained by each other, but both were getting quite a distance from the Herriman. After a hurried consultation Mate Gardiner concluded to send the boat, commanded by the Third Mate, back to the vessel for the buoy or to allow the third mate to return to the assistance of Gardiner and his companions. The Captain's refusal is said to be due to the fact that the second boat had hardly got back when another whale was sighted in the vicinity of the schooner, and Fish ordered the third mate and other men to go after it. At this juncture Mann and his companion stated that they would not do so, as the first mate and his party were in need of assistance and ought to have it and they ought to return with the buoy.

The Captain is claimed, flatly refused to allow them to return, stating that the other party was all right and would return in good season. Mann and his companions did not look at the matter in that light, and informed the Captain that if they were not allowed to return to the first boat they would refuse to work.

Fearing that the other men might take the same view of the matter as Mann and his companion, Captain Fish ordered both men put in irons and taken below. His order was obeyed, and for fifty-one days, according to the story of Mann, he was subjected to cruel punishment, and still bears the marks of the irons about his wrists.

The sailor also complains that while his confinement was severe, it was nothing compared to what he suffered by being refused sufficient food.

He is of the opinion that he has a good case on which to recover damages, and he has placed the matter in the hands of an attorney.

As Mann predicted, the first boat did not return, and had it not been picked up by the Rush it is hard to tell what might have occurred to the occupants.

## BODIE IN 1878-9.

## An Escape Captured.

Sheriff Caughlin returned this morning from Livermore, Cal., bringing with him Chas. Bush, who with Wm. Eastman forged O. Lonke's name to a couple of checks sold to Dan O'Keefe and Alfred Nelson. Bush, it will be remembered left the jail about six weeks ago and was not heard of until overtaken at Livermore. Eastman has already been convicted and sent to the penitentiary. Bush will plead guilty.

## Big Locomotives.

The Baldwin locomotive works of Philadelphia has just completed, for the freight service of the Erie railway, the largest compound locomotive in the world. The weight of the engine is 135,000 pounds, exclusive of the wheels.

It has three pairs of driving-wheels sixty-two inches in diameter. The weight on these wheels, which is the measure of the power of the locomotive, is 107,000 pounds. Its length is fifty-six feet and height sixteen feet. It is expected that this engine can be run at a saving of from 30 to 40 per cent. over the same size single expansion engine. But after all, the Erie's new locomotive will not appear so big when the Baldwin Company has constructed, for the same company, five new ones which are to weigh 177,000 pounds each.

## GOOD LUCK.

Dr. Price's Cream Baking Powder is often called the Good-Luck Baking Powder.

Owing to the fact that good luck always attends the use of Dr. Price's, it is not essential to use it the moment it is mixed nor is it required to have the oven always just so, as in the case with ammonia or alum powders. It is not luck after all, but the exact accuracy and care exercised in the preparation and combination of all the ingredients of Dr. Price's Cream Baking Powder. Competent chemists are employed to test the strength and purity of each ingredient. Nothing is trusted to chance. Hence; it is always uniform in its work.

House wives never fail to have "good luck" in making most delicious bread, biscuit, pastry and cakes that remain moist and sweet. Only Baking Powder that contains the white of eggs.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.
